R' System allows constant air flow all throughout the oven, thus achieving faster cooking times and even results from center to edges. Design grants a high performance in each batch; maximum use of surface results in a large number of units produced while its flexibility helps to reduce breakage. Glossy finishing of cavities gives preparations a bright and golden finish without burning edges or crust. Can resist over 2000 uses. All molds are sized 60 x 40 cm / 23.6" x 15.7".

INSTRUCTIONS FOR R'SYSTEM SILICONE MOLDS:

- Simply wash, rinse, dry and grease lightly before first use.
- For easier positioning and removal from oven, always put mold on a baking tray before filling.
- Always fill ALL cavities in mold.
- Can go into oven directly from freezer.
- Easy to store.
- Do not place mold directly over a flame or heat source.
- Do not use sharp utensils inside mold.
- Do not use scouring pads or abrasive soaps.
- Observe the recommendations of your oven manufacturer.

Safe from
-76°F to +572°F
