DESIGN STUDIO

WHO WE ARE

## From London to You

We are a collective of experienced designers and developers focusing on product creation and space curation for the hospitality industry.

Working in close partnership with our clients, we draw on our extensive design experience, category knowledge and market awareness to create bespoke products tailored to specification.

Our mission is to create beautiful, intelligently-designed products that enable the world's finest hotels, restaurants, and conference and event centres to deliver exceptional customer experiences.

Final Product - Nando's

HOW WE WORK

## Client Collaboration

We pride ourselves in our collaborative client relationships. Our design studio will work with you to develop a product and space curation brief that identifies and fulfills the requirements of your unique situation.

Once established, our designers will create a comprehensive presentation on your products and how they operate in your space.

Product Render - Contract Caterers London

## HOW WE WORK

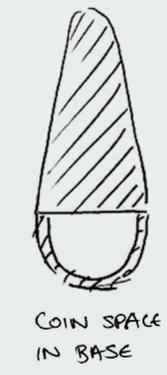

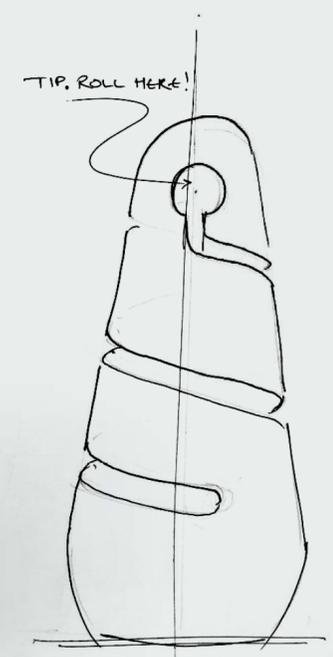

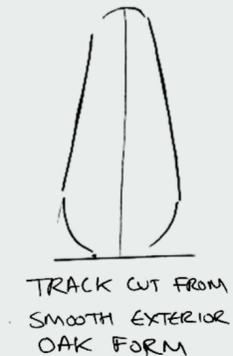

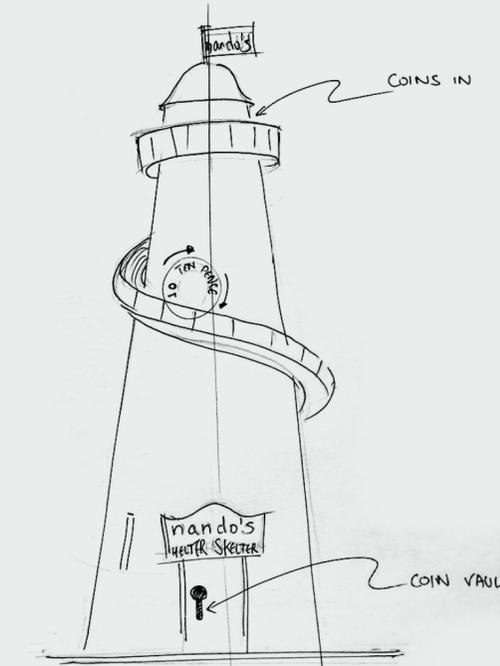

### Bespoke Manufacturing

Upon concept approval, our design collective execute a product sample. Working closely with our supply partners, each element and material is chosen to suit the specification.

Our production sample will then proceed through a collaborative, rigorous quality control procedure to ensure the best solution. Upon joint approval the product will progress to full production and delivery.

### Global Manufacturing and Suppliers

We develop long-term partnerships with carefully selected manufacturers to ensure that we deliver high quality products to all our clients and continuously develop our product collection in collaboration with our supply base.
