## The Folding Tray Table

OUR HERITAGE, YOUR EXPERIENCE

Fine in-room dining trays and stands is where the Craster story began. With almost 30 years in designing and manufacturing dining products that deliver exceptional experiences to five-star hospitality establishments across the globe, Craster is proud to showcase a new product that will redefine hotel dining.

The Folding Tray Table is a dynamic response to new dining rituals and practices around social contact. Rendered in the luxurious hardwoods for which Craster is known, the Folding In-Room Dining Table is available in two heights for unfettered functionality across hospitality spaces.

## A Dynamic Product

Engineered in collaboration with housekeeping and food and beverage professionals at select five-star establishments, the Folding Tray Table is a dynamic product crafted to respond to new rituals of dining and social contact. Ideal for contactless delivery, the demountable tops and legs can collapse to maximise back-of-house storage.

### MAGNETISED STABILITY FOR CONTACTLESS DELIVERY

Bonding the top to stand are four powerful magnets that secure the system for delivery, collection and guest dining. Tabs underside allow for quick demounting to remove the top from the stand for in-bed or poolside dining experiences or storage.

### ERGONOMIC DESIGN AND GUEST EXPERIENCE

Recessed grips on sides of the tray enable professionals and guests to handle and carry the system easily. The magnet strength allows for the top and stand to be delivered or removed together in one lift.

## Folding Tray Table System

An intuitive magnetic locking system offers strong and practical operation while elegant hardwoods deliver exceptional in-room dining experiences. No tools required.

1

During service, the top and stand are secured

2

Depress the tab underside to separate magnets and demount

3

Separate the top from the stand

4

Collapse the legs for storage

## Contactless In-Room Dining Delivery

Cover and transport cuisine from kitchen to guest rooms in the discrete Folding Tray Table system. With guests alerted to distribution, the system enables cuisine to be delivered contact-free to rooms and left beyond doors by professionals, before being collected by clients.

Utilising the magnet-bonded system, guests may easily pick up and carry their meal into the bedroom, where they may choose to dine on the table or demount the top and legs to place their meal on beds or tables, thereby empowering bespoke experiences.

The Folding In-Room Dining Table may be replaced outside guest room doors as a discrete system, offering an alternative to unsightly trays on hallway floors.

## Poolside Dining Delivery

Care for gastronomic displays from kitchen to pool. The discrete folding table system enables cuisine delivery at dining height for cabana or lounge chair service.

Rendered in robust hardwoods with magnetized bonds, the Folding Tray Table may be easily delivered and collected by staff indoor or outdoor, while guests enjoy a ready-made table with optional demounting.

Where contact-free food and beverage service is necessary, the discrete system may be delivered prior to guest arrival, for thoughtful hospitality.

## Lounge and Restaurant Dining

Delight guests with cuisine delivery in lounges and restaurants with the Folding Tray Table. The discrete system offers delivery from kitchen preparation to lounge chair delivery within venues.

The Folding Tray Table's two dining heights offer flexibility for guests seated at couches or desks. The demountable system enables guest choice for utilizing it as a separate table or transferring cuisine onto a lounge table.

In restaurants, the Folding Tray Table empowers guests to feel secure and safe in the cuisine's transport from kitchen to table.
